

MULTI-USE TRAILS

These pathways are off the road, and are open only to non-motorized traffic.

BIKE LANES or WIDE SHOULDERS

On-street space for bicycle use, on medium or high traffic streets.

SHARED ROADWAY

Most intersections have stop signs or signals, with relatively few stops in the direction of travel; some have Bike Route guide signs. Shared roadways may be either:

- low traffic streets or
- medium traffic, wider streets.

DIFFICULT CONNECTIONS

Areas of high traffic and/or narrow street width, or difficult intersections.

PLANNED BIKEWAYS

Funded in the next year.
